In a bid to support the companies facing challenges due to lockdown, robotic process automation (RPA) startup Automation Anywhere has introduced intelligent solutions to empower governments, healthcare organizations and businesses to implement remote working and business continuity programmes. While the company has brought in a few solutions for the government agencies including automating World Health Organisation's clinical case form processing and employee risk assessment, it has also introduced tools to automate business processes that help in enabling remote work.

To further support the businesses, cloud ERP company GoFrugal said it is waiving the cost of their online ordering and delivery management applications for up to six months till September 30. The free bundled solution will help these store owners in two ways: OrderEasy for consumers to order and GoDeliver to manage deliveries efficiently.

In another business update, **Quikr has launched two new listing platforms**, StillOpen and HelpHospitals to keep the supply of all essential goods and services running. HelpHospitals allows the medical community to connect with suppliers of medical equipment and other materials needed for the treatment of Covid-19 patients and the safety of the medical staff. The service is available across India and Quikr says that HelpHospitals is already seeing traction in Telangana, Delhi, Karnataka.

StillOpen allows consumers to keep track of all stores and essential services open near them. The company believes that this would help Indians in lockdown reduce time spent in searching for stores nearby. It will also list hospitals, pharmacies, ATMs, milk booths and Covid-19 testing centres.

Further, ICICI Bank has deployed mobile ATM vans at residential societies in National Capital Region (NCR) and Chennai. This enables citizens to withdraw cash, conveniently and safely at their doorstep and without having to venture out far from their premises during the COVID-19 outbreak. The Bank will shortly ply similar mobile ATM vans in Mumbai, Noida and some districts in UP.
